DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to a library of nucleic acid, classified in class 536, subclass 23.1.
- II. Claims 11, drawn to a method for producing a library, classified in class 435, subclass 6.
- III. Claims 12-13, drawn to a method for producing a library of nucleic acid, classified in class 435, subclass 6.
- IV. Claims 14-15, drawn to a method for producing a library, classified in class 435, subclass 6.
- V. Claim 16, drawn to a method for producing a library of nucleic acid, classified in class 435, subclass 6.

The inventions are distinct, each from the other because of the following reasons:

Inventions I-V are related as processes of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case The library of nucleic acid can be made by the invention II, III, IV, or V. Further the inventions III-IV do not need each other as they are patentably distinct.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or III, or IV or V, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
